Research Assistantship - An Application of Geospatial Analysis and Technology in Urban and Environmental Planning 2009-10

I am looking for a research assistant, who will help develop a GIS-based toolkit to be used in land planning practices.

The position is a 50% appointment, which includes tuition waiver, monthly stipend, and benefits for the **academic year 2009-2010**. Required qualifications for this position include advanced knowledge and skills of GIS (specifically ArcGIS); programming; and interactive mapping. Good communication skills and knowledge of environmental sciences, landscape ecology, land use planning and policy, and statistics are also desired for this position.

To apply for this position, please submit a resume and a cover letter explaining your qualifications for this position (e.g., background in GIS / spatial analysis, programming, interactive mapping). Please deliver your application by 5:00 pm, Wednesday 6 May 2009 to:

Asli Gocmen
Assistant Professor
Urban and Regional Planning
202 Old Music Hall

University of Wisconsin – Madison
Madison, WI 53706

If you have questions, you may contact Prof. Gocmen at: 265-0789 or gocmen@wisc.edu (please do not send assistantship applications to this e-mail address; I will not consider them)

Research Assistantship - An Application of Geospatial Analysis and Technology to Analyze Land Development Patterns – Summer 2009

The position is a 50% appointment, which includes tuition waiver, monthly stipend, and benefits for the **summer term in 2009**. Required qualifications for this position include advanced knowledge and skills of GIS (specifically ArcGIS), spatial analysis, and good communication skills. Knowledge of landscape ecology and metrics principles, and land use planning and policy are highly desired.

There is a possibility that this assistantship could lead into a different assistantship for the academic year 2009-2010, in which the main duties will involve working towards creating a toolkit to be used in land planning practices.

To apply for this position, please submit a resume and a cover letter explaining your qualifications for this position (e.g., spatial analysis, landscape metrics, land use planning and policy). Please deliver your application by 5:00 pm, Wednesday 6 May 2009 to:

Asli Gocmen
Assistant Professor
Urban and Regional Planning
202 Old Music Hall
University of Wisconsin – Madison
Madison, WI 53706

If you have questions, you may contact Prof. Gocmen at: 265-0789 or gocmen@wisc.edu (please do not send assistantship applications to this e-mail address; I will not consider them)

Durham University - Lecturer in Human Geography, Department of Geography

From £36,532 per annum

The Department of Geography seeks to appoint a permanent, full time Lecturer in Human Geography from 1st September 2009 or as soon as possible thereafter. We invite applications from those conducting internationally excellent work in this field in geography and cognate disciplines. The department is interested in any relevant specialisms within the area of 'Environment and Society', but especially in those offering complementarities with work being undertaken on issues such as:

- Environmental values, practices and social justice
- Environment, policy and governance
- Geographies of risks, harm and resilience
- Governing energy, energy use and equity
- Human, animal, technology and nature interactions

Further details of the post and an application form are available on our website (<https://jobs.dur.ac.uk>)

Reference number: 3199 Closing date: 15th May 2009

UW-Parkside Geoscience lecturer

The University of Wisconsin-Parkside invites applications for an anticipated lecturer position in the Department of Geosciences. The position is for one year beginning in August 2009 with a possibility of renewal.

Required: Ph.D. in Geosciences or closely related field

Qualifications: Ph.D. candidates in Geosciences or a closely related field (i.e., “all but dissertation”) will be considered. Ability to work effectively with culturally diverse students and colleagues.

Responsibilities: The teaching load is 12 contact hours per semester, usually three lecture courses plus a three-hour lab or two lecture courses plus two three-hour labs. Teaching responsibilities will include both introductory level courses in Geosciences (e.g. Historical Geology and Rocks and Minerals) and upper level courses in soft rock geology or environmental applications with field studies.

Salary: Salary is commensurate with qualifications and experience. The University of Wisconsin System provides a liberal benefits package, including participation in a state pension plan.

Review of Applications: Applications received by May 19, 2009 are ensured full consideration. The position is open until filled.

To Apply: Please send a cover letter, vitae, and three letters of recommendation with contact information to:

Dr. Zhaohui Li, Chair of the Search Committee,
Geosciences Department
University of Wisconsin-Parkside
900 Wood Road
Kenosha, WI 53141-2000

The University: The University of Wisconsin-Parkside is committed to access, diversity, engagement, and academic excellence. It currently enrolls approximately 5,100 students, many of whom are first generation and nontraditional students. UW-Parkside benefits from the ethnic and racial diversity of the communities it serves in Kenosha, Racine and Walworth Counties. Located in northern Kenosha County in the Chicago-Milwaukee urban corridor, much of the university's 700-acre campus has been preserved in its natural wooded and prairie state.

Volunteer opportunity – Vanuatu Cultural Center

The Vanuatu Cultural Centre is currently seeking a volunteer to assist with the design and implementation of a land-use plan for the 'buffer zone' of a World Heritage area, located half an hour north of Port Vila. The project (see attached), which has been approved by AusAID, requires a dedicated individual to work with two local communities over a period of eighteen months, commencing no later than July 2009. Experience in rural planning and law, with some background in heritage, conservation and small business development, will be considered highly desirable.

Could you please pass on this email to students and others you think might be interested in this position?

Interested applicants should email a CV (no pictures please) and a brief expression of interest to Meredith Wilson (mem@homemail.com.au) no later than 5 May 2009.

Kind regards,

Dr Meredith Wilson
Coordinator, Roi Mata World Heritage Project
E: mem@homemail.com.au

University of Manitoba Centre for Earth Observation Science Research Associate

The Centre for Earth Observation Science (CEOS) has an opening for a full time (contingent term) appointment at a 'Research Associate' level to work in climate forcing of sea ice dynamic and thermodynamic processes. Candidates with a background in remote sensing, numerical modelling field observations, and or statistical approaches to understanding sea ice processes are encouraged to apply. A Ph.D. or masters in meteorology, oceanography, physical geography or related field is desirable.

Candidates should send a CV and letter of intent via email to Prof. David Barber (dbarber@cc.umanitoba.ca). Pay and benefits are competitive internationally and commensurate with qualifications. The University of Manitoba is an equal opportunity employer. Reviews will begin May 15 and continue until filled.

<http://umanitoba.ca/ceos> for more information on the centre.
