

Geography 575

Obtaining a Geography Student Account

You will need to establish a geography student account so that you can obtain web space on which to post your 575 map animations.

Go to: <http://www.geography.wisc.edu/support/> and click the “submit request” button. Follow the link to “Request a student Geography account (Champlain).”

Important: If you get a dialog box warning about a security alert choose **yes** to proceed (Explorer). If you get a dialog box warning about the website being certified by an unknown authority, choose **accept** to proceed (Netscape).

Fill in the form, read the terms of use, and submit your request.

You should receive an email in the next week indicating your new password.
